

Custom Mahjong Rack Pricing

Every custom set starts with a base wood rack and builds from there. Add only the features you want — pricing is modular and transparent. All custom rack set prices include standard pushers.

Note: All prices are estimates for the customer's reference and are subject to change based on the intricacy of the project. The price is not final until it is sent in an email as a formal quote.

FEATURES & UPGRADES

\$110–\$400

Base wood rack

Starting price for a single rack, based on the wood species chosen. This coincides with the price the standard rack set would sell for on the website (e.g., Purpleheart base price is \$299). Custom features raise the price from there. The standard rack is 20"L × 2-5/8"W × 1"H. Shorter racks can be requested at no additional cost — they're simply not stocked.

\$100

Custom size

Larger, smaller, or a custom-sized portion of the rack built to your specs. Length, width, and height can all be adjusted to your preferences. Some feature upgrades may require specific minimum sizes.

\$100

Custom stain color

Send images, references, or actual color samples — I'll match it and return your samples with the finished product.

\$100

Front ledge lip

A lip added to the front of the ledge to lock tiles in place. For some tile sizes this will increase the ledge size, and may increase the width of the rack depending on the other upgrades it's paired with.

\$100

Hidden magnetic pusher storage

Built into the bottom of the rack — hidden from the exposure side, with the pusher ends still visible from the sides. This will increase the width of the rack if paired with the stackable feature.

\$50

Stackable racks

Adds a groove to the bottom of the racks so they stack cleanly for storage. This will add to the width of the rack if paired with the hidden pusher storage feature.

\$50

Scalloped pushers

Adds scallops to all 4 pushers. They will also be magnetized. If you want scalloped pushers and the hidden pusher storage feature, it will increase the width of the rack.

\$50

Add a hinge

Removes the left pair of magnets and adds a pinned or jewelry-box hinge to the left side of the pusher. Right-side magnets remain by default. Hinge with no magnets must be clearly communicated during final pricing.

\$100

Tile marker inlay

A contrasting wood inlay notched into the back top of the ledge, sized to your tile set. Send your exact tile measurements — I'll count 19 tiles and inlay your chosen contrasting wood at the mark. No more counting with fingers.

\$200+

Custom inlays

Prices start at \$200 but vary greatly project to project. I'm working on a few showcase projects now — if there's something specific, interesting, or crazy you want inlaid, reach out with the details. Most likely I can do it.

Ready to start a custom set?

Send your wood, size, and feature preferences along with any reference images. You'll receive a firm quote and a build window — usually within a day.
